

FP2 - TIP 'O THE WEEK

STREET NAMES AND TYPES

Street Names and Types

In FirePro 2 (versions 76.14 and newer), the street name and types are combined into one field.

Some departments may find that their street list has some odd and duplicate streets. For example, you may have both "10" and "10 Street" in your list. Both should be "10 Street".

This is easy to fix.

Go to, Maintenance → Edit Pop-up Lists → Address Pop-ups → Street Names

Street Name	AKA
10	
10 STREET	
BAKER STREET	
DAVIES STREET	
FALLS STREET	
MAIN DRIVE	
MAIN LANE	
MAIN STREET

Click on "Edit" and go to the line with "10". Change it to, "10 Street". Click "OK" and FirePro 2 will combine the names and change all properties with "10" to "10 Street".

That's all there is to it.

Have a wonderful week!

Quote of the week:

"Far away there in the sunshine are my highest aspirations. I may not reach them, but I can look up and see their beauty, believe in them, and try to follow where they lead."
